## GENERAL WELLNESS

Gerald, my colleague from Festac, complained he was having pains and was itchy all over his body, he also suspected Typhoid and Malaria. I gave him Bitters & Cleanser. Two days after, he said the itching has stopped and he is better.

*Shared by Ben Uwalaka, Festac*

RIDA works wonder, My name is Mrs. Precious. My son was ill and was vomiting non stop. He refused to eat anything and was crying non stop, he was so weak that I had to give him drip, I complained about it to Edith Famous and she told me to get RIDA, I went for the smaller bottle just to try it out.. Lo and behold, after taking it, he vomited all the rubbish undigested food he had eaten and slept like a new born. When he woke up, he was as healthy as always, and was asking for food. As I'm typing now, he's running and playing. Thanks madam Edith. God bless you

Your products are nice. I prefer your disinfectant to Dettol.

*Shared by Laruba, Lagos*

In less than 5 weeks of taking Rida Bitters and Cleanser, the growth in the neck disappeared. Rida rocks

## GENERAL WELLNESS

There's a woman who has been coming to buy the balm because, according to her, it's good for her. I noticed she couldn't hear well whenever I tried speaking to her. I encouraged her to buy the Bitters, she was able to buy the 30mls. The woman came two days ago to tell me that the thing that was going round her body had left. She also put the balm in her ears and pus came out of there and since then she could hear well.

This is my personal testimony. Last week, I went for the second dose of Covid-19 vaccine. My system went haywire. I had blisters under my tongue. I wasn't really feeling feverish but I wasn't just comfortable. I used Rida to gargle. I just remembered now that the blisters are no more there and I can now eat properly and I'm fine. Rida truly Rocks.

*Shared by BusolaAdesanya, Lagos*

Someone who has fatty heart issue contacted me. He added that it is hereditary. I followed up with him after he bought the products. He said the heart burn he used to have has gone. Although he hasn't called back to tell me otherwise, so I believe the product worked him.

## PAIN/ ARTHRITIS

My brother is walking perfectly now and has resumed back to work, just like a miracle. Thanks for the drug.

*Shared by Wonuola, USA*

I used Rida balm on my painful knee, and after 2 days the pain left ooo.. help me shout a big HALLELUYA..

*Shared by OshoOlanike, Osogbo*

On 24th June 2022, at our church's Friday vigil, I asked after our former pastor from his wife she replied that he has back pain and can't walk. I gave the wife Rida balm to apply on her husband's back when she got home. To the glory of God, papa stood on his feet within 1hr of using rida. The wife sent me an early message the next day, thanking me for the rida balm. Papa also came to Sunday evening program, saying it was as if it was Rida balm that put the pain there in the first place. Within an hour of using Rida balm, I started walking well.

The Rida products have healed me. It took care of my lower back pain and Amenorrhea of 11 months. After wasting much money on so many medicine both orthodox and china Products! The other benefits I have enjoyed include team building, earning team bonuses and other mouth watering bonuses. Also I just

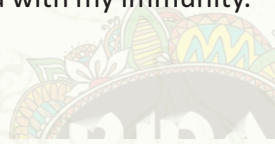

## PAIN/ ARTHRITIS

t qualified for an all expense paid Dubai trip 2 months ago by this same company, but rescheduled till October because of delay in getting my international passport.

Last month May, made it exactly one year that I had an accident. The accident was near fatal but for God. When I went to the orthopedic hospital, I was told my right leg was going to be hung for about 3 months. I said that's not my portion. The accident happened on a Saturday evening, the Sunday morning I missed church but subsequently, I was using walking stick. I told them I would come from home cause I know they won't be able to take good care of me at the hospital. Thankfully, my hubby was working from home, so he took me to the hospital. The first one week I was basically carried. After about three weeks, I started putting down my foot. That month, I was scheduled to start a physical training for Pastors. My hubby and I went for the course for two weeks. The second month, when I went for dressing, we had a scan done, the doctor saw the progress made, and asked me who are you? She was surprised at the rate of improvement. She asked me what I take. I just smiled. I've been on Rida since 2019. I joined Greenmondays because of my health. I used to have BP. I spoke to DrFunmiAina and we started taking it. I and my hubby do not Take any supplement outside of Rida Products. The products helped with my immunity. Now I can walk and even run.

## FEMALE HEALTH

A lady I sold Rida Bitters and cleanser to three weeks ago, called me to tell me she has started seeing her menses and that her swollen leg too has reduced. I give God praise

*Shared by Magdalene Okpoyo, Uyo, Akwalbom.*

I'm fine but I'm not sure if the fibroids has reduced, I still feel the hardness. However, I noticed that Rida corrected my hormones. My period comes well with very less pain. The flow is not too heavy like before. It comes moderately. It has also reduced my weight. *Shared by OshoOlanike, Osogbo*

This woman and her husband travelled all the way from Ile-Ife to my office in Ibadan on the 14th of April this year. The woman 44 years old had not been seeing her menstruation for more than two years.

The husband 46 years old was having erectile dysfunction, they struggled to go to 'Jerusalem' once a week, and they want to conceive. It's been two months since they started with the Rida plan. They bought the 3rd set of Rida range two days ago to complete their 90 day therapy.

The wife told me (and the husband confirmed it when he called too) that they now travel to 'Jerusalem' 4 times in a week. The woman called me this afternoon to share a bigger news... she saw her menstruation this morning. Rida Rocks

*Shared by Sesimeh, Ibadan*

## FEMALE HEALTH

On a regular basis, I give out products worth 70k or more per month sometimes. Someone came to my office recently and I gave her 30mls. She came back a week after to tell me the Bitters worked for her.

I asked what it did for her. She said she used to have this lower abdominal pain, but when she uses the Bitters twice, what came out of her body was shocking. She decided to buy the 250mls at a discounted price.

While she bought, I told her she could make a business out of it. A day or two after, she came back to buy another one. In less than 2weeks she had sold close to 40 bottles of 30mls.

## BP/ Hypertension

A younger friend from Ilorin messaged me. She believes Rida can help her Hypertensive, and swollen feet conditions (post birth). After a while, she did the female wellness pack. This is her second month and she sent me a message that she has lost 10kg and she intends to lose more. She has seen massive improvement in her health.

## CANCER

House, remember a post I shared about how to administer to my brother who has enlarged liver and spleen, hypertensive issues?

To God be the glory, we went for review today 6th, June and the doctors asked us what medicine we have been giving him. When the location of the cancer was not ascertained, the doctor recommended an operation on his lymph nodes. In the layman's understanding, we believe that once they perform any kind of operation on a cancer patient, it'll hasten its spread.

So, we tactically avoided it. When I started administering RidaBitters, just the first 10mls, he started stooling uncontrollably & he refused to take it again. I gave him 2weeks break but was giving him mixed vegetable juice that was equally detoxifying. He was on fruits & vegetables for 3 weeks before I reintroduced RidaBitters. This time, no more stooling up to date.

He was discharged from Luth with only fesolate tablets. We went back for review & possible operation of the lymph nodes but the doctor could not find any lymph nodes again! He was shocked and could not help but ask us what medicine he has been taking.

Three doctors, including a consultant were dump founded today. To cut the long story short, they referred us to the Cardio- thorax doctors for next review next week. This can only be God!!! Thank you, Sir. The doctor studied his file again to be sure of his case!

## SKIN/ SORE/ CANCER

A sister in church gave birth to twins at the age of 50 after many years of waiting. About last month, she called me that the babies has rashes on their bodies. I told her to make sure they are not given injections cause we don't want to lose our miracle babies. They are about 5months old . She said someone told her that I have a product that she can use. I said yes, it's Rida. I promised to send her a pack. I told her to use topically on their bodies. By Thursday, she called to tell me everything has cleared and I was surprised. The little miracles we take for granted.

*Shared by Mrs Eugenia, Lagos.*

## BREAST CANCER

A woman sent a team member pictures of what doctors diagnosed as breast cancer and he just told them about Rida Bitters and directed them to someone who sells around their area. The woman bought it 4 months ago.

Team member was sent a message few days ago that the doctor said there's nothing like cancer in her breast again.

*Shared by KunleAlashi, Lagos*

## FERTILITY/ PREGNANCY

The lady I placed on Restore, the husband on Fire and Bitters, whom I told you about last year has given birth today, she just called me now.

*Shared by Tayo Adeniyi, Lagos*

There's this couple about 3 buildings away who has a 4 year old daughter. I rarely make my hair from the wife's salon. They've been trying to conceive after the first to no avail. My team member wanted me to introduce the products to her but I told her I don't pry into people's privacy.

So I told her to get them products. My team member didn't have the products at home so she got from me. Subsequently, she bought the Cleanser. She didn't even finish a bottle of Cleanser before she told my team mate that she was pregnant. She had also been battling with infections.

Last week, she gave birth, did the naming and yesterday, when she saw me approaching, she started hailing "mama Rida", and I wasn't the one who sold the products directly to her. Rida really rocks.

## TESTIMONIES

## WEIGHT MANAGEMENT

I've been diagnosed for visceral fats and have been told about the dangers it can cause on my health, but the combination of Rida bitters (capsule) and Rida Fat burner has saved me and reduced the visceral fats. Thanks to God, thanks to Rida.

*Shared by Pst Sola, Osogbo*

## ULCER

A week ago, I got a call from a man whose wife complains of constant stomach pain since she started family planning. She also has ulcer. I placed her on Rida bitters and today I got in touch with him and he said his wife's frequent complaints of stomach ache has reduced even though she doesn't use the bitters all the time.

## TESTIMONIES

## MALE HEALTH

This testimony is from a colleague and friend who called me on Monday to have a product for her Dad who had BPH surgery done late last year and was back in the hospital due to serious back pain and infiltrating adenocarcinoma, result from histology done after the surgery. I got her the male wellness pack on Monday and above is the testimony today Thursday  
*Shared by Olly, Lagos*

## MALARIA

I was ill 2 weeks ago and I went to the hospital. We ran a test, I treated Malaria cause the doctor said I do not have typhoid. After the treatments, I still didn't feel well. I decided to take the Bitters for two weeks and also gargle with it cause I had blisters in my mouth. By the third day, I became as strong as a fiddle. Here I am.  
*Shared by Mrs Eugenia, Lagos*

## TESTIMONIES

## CHOLESTEROL

There's a medical Doctor in my church, who always teases me about our products. Someone, he walked up to me last month to ask if I had something that can work with cholesterol.

I suggested the Fat Burner and I insisted that he must do his reading before and after he uses the product so we can compare.

He agreed and started using the product.

Last Sunday, he called to tell me he was feeling better. I asked if he had done a test, he just said he is a medical doctor and he is sure, and I supplied him more.
